Great Sandhills Railway

General Tariff – GSR 1500

Fuel Surcharge

Effective May 1, 2019

Item 100 - Fuel Surcharge Program

The GSR will assess a mileage based fuel surcharge to all loaded shipments and will apply to all commodities and equipment. The calculation and amount of the fuel surcharge will be the same as what is specified in the CPRS Tariff 9700 for carload shipments. This value will apply to all loaded shipments on the GSR, there will be no distinction for bulk commodities.

The values listed for the first half of each month in the CP program will apply to the whole month on the GSR.

All GSR rates are in CAD so only the CAD fuel surcharge will apply to shipments.
